

RUINS OF KASYAPA CASTLE ON TOP OF SIGIRI

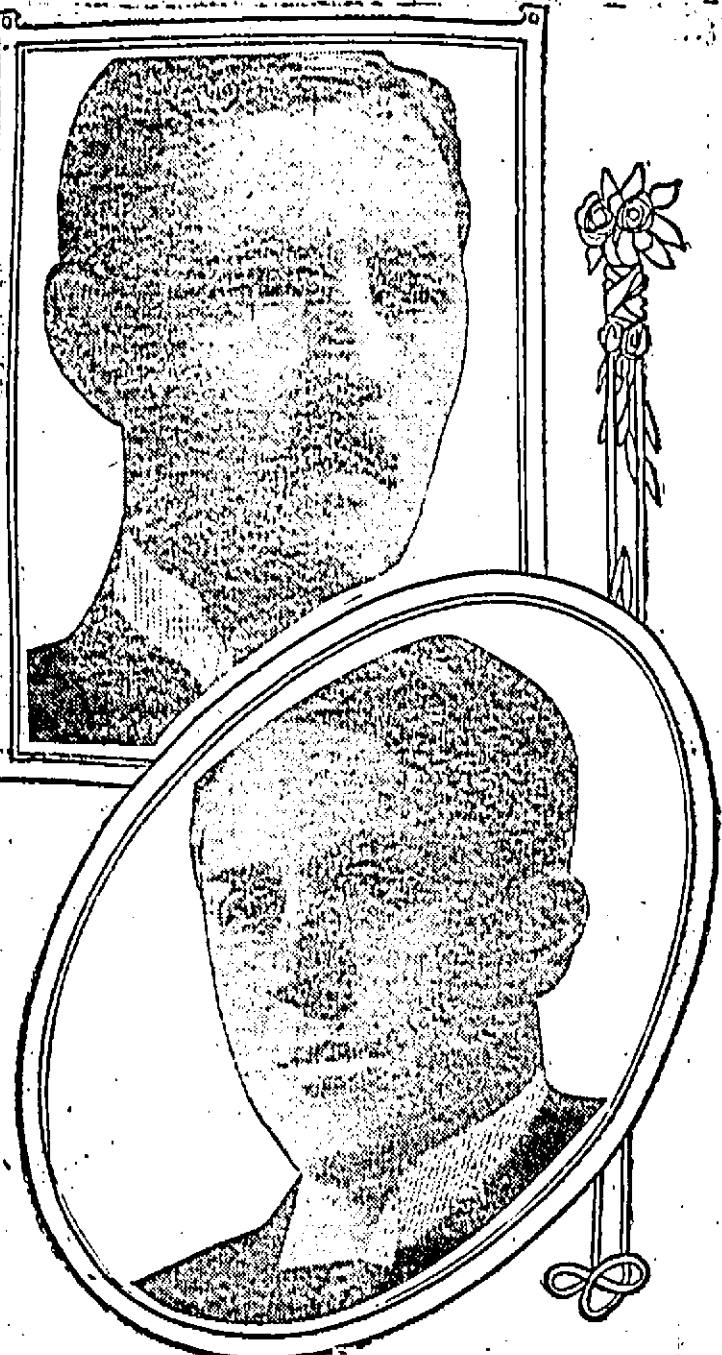

MT. SIGIRI.

Of all the interesting and historical features in the world the red monolith of Sigiri in Ceylon attracts unique attention. As a fortress in early warfare it was absolutely impregnable. It even surpassed the famous rock of Gibraltar in this respect, as the top actually overhangs the base. Around this monolith is woven history which dates back to the fifth or sixth century, B. C. At this time the wicked King Kasyapa took refuge there, writes Ellen R. Seligman in the National Geographic Magazine, and fortified himself against his brother. On the top he built a magnificent temple and palace. The ruins are so well

preserved as to show clearly not only the design of the buildings, but a bathing tank 30 feet square, cut in the rock. On this the king received his subjects. There are sections in the rock showing where the supports of a wooden pavilion roof were set. Here the king lived in safety for many years, but eventually his brother came and Kasyapa foolishly met him in battle on the plain below. He was killed and the brother then ruled from the same throne.

Only a few people who may travel hundreds of miles to view this famous rock ever climb to its summit. This has to be done by a series of ladders and requires nerve and agility.

THE MEN WHO ARE ON THE TRAIL OF STANDARD OIL. United States District Attorney William H. Sims at top, Assistant District Attorney James H. Wilkerson at bottom.

Chicago, Ill., Feb. 4.—District Attorney Sims and Assistant District Attorney Wilkerson are not through with Standard Oil. Just at present they are bending every effort toward former decision of the question of whether the big \$29,000,000 fine assessed by Judge Landis must be paid. Both of these lawyers have just returned from Washington after a conference with Attorney General Bonaparte with respect to the petition filed by counsel for the Standard Oil. The two principal questions raised by this petition are:

1. Whether the offense charged in the indictment upon which the Standard was convicted of receiving rebates

from the Chicago & Alton railroad is or is not a violation of the law.

2. Whether or not the Elkins act under which the Standard was convicted, was repealed by the Hepburn act, and the alleged offense charged in the indictment remitted and extinguished.

Messrs. Sims and Wilkerson intend to fight to the last ditch to enforce collection of the fine from Rockefeller's company.

This is not the only attack, moreover, or, to be on Standard Oil in the Chicago courts. Attorney Sims will probably ask the federal court within a few days to set a time for hearing the case against Standard Oil for accepting rebates on shipments made

over the Burlington and the Chicago & Eastern Illinois railroads. The former case contains 2000 counts and the latter 1400, and if convicted on all and the maximum penalty is imposed, the Standard Oil company will be fined another \$68,000,000.

## MICHAEL J. DAWSON DIED THIS NOON

Well Known Cattle-Boyer Succumbs to Typhoid Fever After an Illness of Two Weeks.

After an illness of only two weeks' duration Michael J. Dawson died today at one o'clock at his home at 106 Cherry street. Mr. Dawson had been ill with typhoid fever, but was expected to recover until he suddenly took a turn for the worse a few days ago.

He was born in Janesville in January, 1875, and was the son of the late Michael Dawson of this city. His wife, who survives him, was formerly Miss Elizabeth Connell. Three children—Mary, aged six; Donald, aged four, and Michael, aged two—are left to mourn his loss, besides two brothers—Richard of Janesville and John J. of Chicago, and one sister—Mrs. E. H. Connell of this city.

Mr. Dawson, who was well known throughout the county, was a man known and loved for his kindness and honesty. He was a man of exemplary habits and a loving father and husband.

The funeral will be given later.

Alex. M. Harvey  
The funeral of Alex. M. Harvey was held this afternoon from his home in La Prairie at one-thirty o'clock. The Rev. J. W. Laughlin officiated and the interment was in Oak Hill.

Helen Louise Miller  
The funeral of Helen Louise Miller, the five-months-old daughter of Mr. and Mrs. Frank Miller of 157 Linn street, was held yesterday afternoon from the home. The Rev. W. P. Christy officiated and the interment was in Oak Hill.

## KICKERS' KOLUM.

—To the Editor of the Kickers' Kolum: After the tremendous snowfall of Saturday one would naturally expect to find the downtown walks cleaned this morning. It is clearly the business of the city to do this if the property-owners fail to do so. In other cities of this size, if a walk is not looked after promptly by the person supposed to do it, the city does the work and a charge is made against the property owner. What is the matter with the street commissioner? If a man is not public-spirited enough to see that the walk in front of his place of business is kept free—if he can not even see any reason why he should make his doors approachable—the street commissioner or is armed with the necessary power to hire a man to do the work and to make the charge for the same against the property.

The question of clean walks is as important to the city as it is to the one citizen who plows through the snow or slips on the ice in front of the store of the man who says to himself that the feet of the passers-by and the sunshine will clean off his walk without any help from him.

## NEEDED WINDING.

Miss Subbubs—All the flowers in the garden are in bloom now, except the four-o'clocks.

Mr. Wise—Maybe you forgot to wind them up.—Cincinnati Enquirer.

## KEEP OFF THE GRASS.

Jumpin'—Say, Jimmy, come up here on the path; the air is much finer, and it's smoother walking!—The Jester.

The Epitaph Deserved.  
"She remained at home and spun wool" is the inscription over the grave of a Roman woman and many another woman is bravely doing the task, performing her duty with the same faithfulness that characterizes the soldier destined to either lead or follow. Fortunately the poor spinners are so constituted that they would do naught else by choice.

## ANOTHER BLOW FOR ORGANIZED LABOR

SUPREME COURT DECIDES CASE AGAINST HATTERS' UNION.

BOYCOTT HELD ILLEGAL.

Interference with Free Exchange of Commerce Between the States Must Not Be Permitted, Says Tribunal.

Washington, Feb. 4.—Monday for the third time within a month the supreme court of the United States promulgated an opinion constraining laws adversely to the contentions of organized labor.

The first of the decisions was rendered on January 6 in the case of some railway employees who sought to secure damages under what is known as the employers' law, making railroads responsible for injuries resulting from the negligence of fellow servants, which law the court held to be unconstitutional. The second important finding in this line was announced on January 23, when the Erdman arbitration act forbidding the discharge of employees because they are members of labor unions was also declared to be invalid.

Hatters' Union Defeated.  
The verdict rendered Monday was in the case of *Lawler vs. Loggia*, the former a member of the Hatters' union and the latter a hat manufacturer of Danbury, Conn. The case involved the applicability of the seventh section of the Sherman anti-trust law to conspiracies by labor unions to boycott articles entering into interstate trade. Under the terms of that provision the complaining party may collect three times the amount of his loss if the charge is sustained.

The union fought the case on the ground that the law was inapplicable to such organizations, but the court, whose opinion was announced by Chief Justice Peck, failed to accept this view and in effect held that the unions could not be permitted to interfere by boycott with the free exchange of commerce between the states. There was no dissenting opinion.

Case Within the Statute.  
"We think," said Chief Justice Peck in conclusion, "that a case within the statute was set up and that the demurrer should have been overruled." The decision, therefore, reversed the ruling of the lower court and the case was remanded with direction to proceed accordingly. Chief Justice Peck said: "In our opinion, the combination described in the declaration is a combination in restraint of trade or commerce among the several states in the sense in which those words are used in the act, and the action can be maintained accordingly, and that conclusion rests on many judgments of this court, to the effect that the act prohibits any combination whatever to secure action which essentially obstructs the free flow of commerce between the states, or restricts, in that regard, the liberty of a trade to engage in business."

## STEAMER ST. CUTHBERT BURNS.

Fifteen of Crew Drown—Others Rescued by Liner Cymric.

Halifax, N. S., Feb. 4.—In the midst of a wild blizzard Monday afternoon, the steamer St. Cuthbert was burned to the water's edge off the Nova Scotia coast.

Fifteen members of the crew were drowned Sunday by the swamping of a small boat in which they attempted to leave the vessel after fire had broken out. The other 27 members of the crew, including the captain, were rescued by the White Star liner Cymric. After taking off the survivors, the Cymric abandoned the burning steamer and proceeded to Boston.

News of the destruction of the St. Cuthbert was received here in a wireless message from Capt. Finch of the Cymric.

## NOVEL TEST BY TOLEDO JUDGE.

Sends Himself to Workhouse to Study Conditions.

Toledo, O., Feb. 4.—Handcuffed and shackled, Police Judge James Austin, Jr., was carried to the patrol wagon and taken to the workhouse Monday, where he will serve a short time with the inmates for the experience to be gained. The judge sentenced himself to the workhouse because he wanted to learn by experience that punishment he was imposing upon others.

## Burns Himself to Death.

Des Moines, Ia., Feb. 4.—Leaving their bed without disturbing his wife, Abraham Laydnicht Monday went to the kitchen of their home here, where he soaked his clothes in kerosene and then applied a match. Before aid could be summoned the man died in terrible agony.

## Old Publishing Concern Assigns.

Lexington, Ky., Feb. 4.—The Transylvania Printing company, one of the oldest publishing companies in the west, assigned Monday to J. R. Bush of this city. Assets are about \$50,000; liabilities not given.

## Coal Gas Kills Aged Couple.

Walpaton, N. D., Feb. 4.—Mr. and Mrs. Peter Whitman, an aged couple, were both killed by coal gas at their home in this city. They were found by their son-in-law, Sylvester Dietz.

## Cough Cure Good as Cream.

Here is a simple cough syrup that is as pleasant to take as an ice cream. Grate the rind of one lemon and squeeze the juice from two over about

two tablespoonsful of sugar. Be very careful to grate only the yellow, as the white gives a bitter flavor. Add the juice and grated rind of orange, let this stand 10 or 15 minutes, then strain through a cloth. The result is a refreshing syrup which quickly relieves irritation in the throat.

## Old Miracle Plays.

In the old miracle plays the "Adoration of the Three Kings" was always represented by members of the Jewellers' guild, each act or scene of the plays being given by a separate corporation, which defrayed all the expenses.

## Deep-Growing Plants.

The greatest known depth at which any green plant grows in fresh water is reached by a moss called *Thamnum bennetii*, which has been lately discovered by Prof. F. A. Forel 200 feet below the surface of the Lake of Geneva.

## JUST A SUMMER ENGAGEMENT.

Tom—Isn't that a beautiful engagement ring?

Pess (absently)—Yes, but mamma doesn't allow me to accept such beautiful and expensive presents from gentlemen I do not expect to marry.—Cincinnati Enquirer.

## SPECIAL SHIRT WAIST COURSE

Our two popular courses at \$12.00, which include shirt waist cutting, designing, and making. The cutting teaches the proper method of taking measurements, the theory and use of Snow's Success system of garment cutting, the cutting of shirt waists, dressing sleeves, and sleeves of all kinds.

Designing teaches the study of style from an artistic standpoint. The student is taught to reproduce any pictured effect by exact measurement in true proportion to the form.

The course entitles you to make one shirt waist in the class room under the instruction of expert teachers, and gives you the privilege of making as many more after the course is finished for an additional charge of \$1.50 per week.

You can save the cost of the course by doing your own spring and summer sewing in the class room. You can make your garments to suit yourself at any time you wish.

We have a hundred satisfied patrons in Janesville, and invite you to call at the class room and see the work being done. Talk to the students and satisfy yourself as to the merits.

GERMAN PARLIAMENT AND CHANCELLOR VON BÜLOW.

The contest between the socialist party and Chancellor von Bülow for he declared did not affect the government in the slightest degree. He threatened and intoned cheering from the government to Germany reached a critical stage last week when the following significantly worded appeal was presented to the Reichstag by the socialists.

"On what ground does the chancellor consider manhood suffrage, as already granted for the election to the imperial parliament, to be harmful to the interests of one of the federal states?" The parliament buildings have been surrounded by police as guard as trouble was anticipated.

Prince von Bülow opened the Reichstag proceedings by a warning against further manifestations, which socialists, that the leaders and organizers of all demonstrations would be dealt with severely.

The chancellor trembled with indignation when he referred to the street manifestations and terrorism which he declared had been introduced into the capital. He stigmatized the street demonstrations as dangerous to the country, and he looked directly at the socialist members when he announced that the organizers would be held responsible. He was compelled to pause for several minutes because of derisive laughter from the socialist benches.

# H. L. McNAMARA

FIELD MARSHAL LORD EARL ROBERTS, COMMANDER IN CHIEF OF THE ARMIES OF GREAT BRITAIN.

London, England, Jan. 31.—Lord Roberts steadily and persistently pursues his self-appointed mission to "indocilize the British people in regard to military matters. Like a majority of keen soldiers in this country, he is convinced that compulsory service is the only solution of England's difficulty, but he recognizes that it is useless at present to urge this point, so he constantly tries as a palliative the giving of all boys a certain amount of training in rifle shooting. Then at the age of 18 or 19 he says they should be put through a two months' drill, after which they would turn out useful soldiers and a fortnight's training during the three following years would probably make them all that was required. Advocating this the other night, he said: "Notwithstanding all that has been done for the soldier, the fact remains that the standard of height, weight, and breadth of chest had to be reduced to such an extent that we are now taking into the army men who are utterly unfitted to undergo the hardships of a campaign. I want to make it quite clear that the regular army is only just sufficient to provide for the garrisoning of India and the colonies in times of peace and the putting of a very small force in the field. "Many people entertain the belief that an invasion of England is impossible. They are encouraged in this by those who might have known better. It is the past immunity from trouble and the astonishing apathy and ignorance of our people that the great danger to this country lies. They know nothing of the horrors of war and seem quite willing to let matters slide along as they imagine that no danger can come to themselves."

#### Cold Has Little Effect on Sheep.

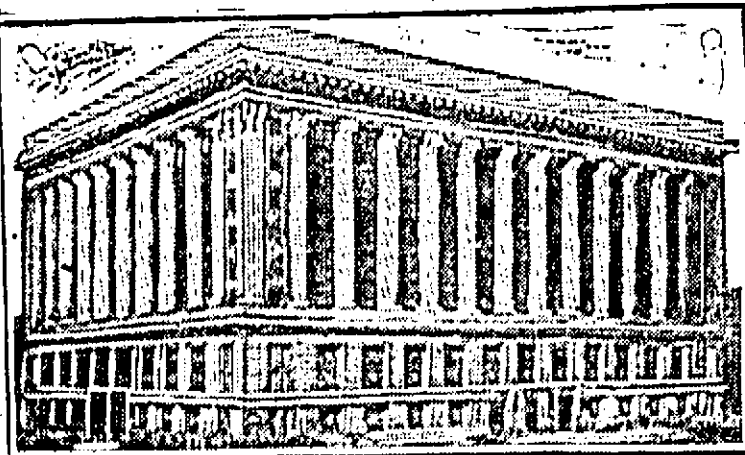

Of domestic animals, sheep come first as cold resistors. Sheep have lived for weeks buried in snow. When the great blizzard of March, 1891, swept Devonshire, sheep were dug out alive from the enormous drifts 24 days later. Goats and pigs take, respectively, second and third places.

#### The English Workman.

Next to this "sentimentality," so astonishing to Europe—because so irrational—comes the invincible patience of the English workman. He will endure almost anything—in silence—until it becomes unendurable. When he is vocal, it is pretty certain that things have become unendurable. —English Nation.

Uncle Sam: "Look who's here," introducing the twins.

CHICAGO'S NEW CITY HALL.

Chicago has combined its city hall, which is one of the most notable and costly court house in one building—examples of municipal architecture

TYPES OF WASHINGTON BEAUTY  
Mrs. Charles J. Bonaparte, wife of the attorney general of the U. S.

of recent years. When completed this Cook county edifice will be 11 stories high, with the first floor 22 feet and the other floors varying from 12 to 15 feet in height. The basis of the design of the Cook county building is of the Colossal Corinthian order, and the material used on the outside is of terra cotta and granite. The combination of city hall and county building under one roof is an innovation in municipal architecture and construction which is just now finding ready favor, and the Chicago example should prove most efficacious for cities contemplating new municipal headquarters.

#### Naval Rank.

The highest rank in the United States navy is that of admiral, with salary at \$13,500 a year. The next rank is that of rear admiral, with salary at \$7,500 for sea duty and \$5,375 for shore duty.

### THE NATION

As a nation, the United States is expected to do great things. It is the real balance wheel of the world. Lying on the other side of the globe from China and Japan, it stands between Europe and the so-called "Yellow Peril."

Admiral Evans and his fleet have turned on the long trip up the South American coast, transforming an Atlantic into a Pacific squadron. It is a peaceful mission, but at the same time the eyes of Europe are watching with interest the attitude that Japan will take to the gigantic display of marine strength on the part of Uncle Sam.

The Hugo writers would have us believe that Evans and his fleet are intended to protect the Pacific coast, guard the Philippines and if need be attack the Nippon Empire in its entirety. War can be seen in every move of the sensational writers who predict a struggle between the East and West. As a Nation the United States has a great responsibility, but this responsibility does not mean that it will wage war upon a neighboring state. Japan and the United States have too much in common to fight.

When Admiral Perry's fleet sailed into the Japanese harbor in the Fifteenth he opened the doors of the little island kingdom to the world. Japan has taken wonderful strides since then. Its sixty years of intercourse with the world has broadened it and expanded its little people. Today the Japs can excel other foreigners in adaptability to circumstances and learn far more quickly than do the people of Europe. Imitators of the older nations, they have picked the best of the learning of the world and inculcated it in their national life. While they fought Russia and humbled its pride they do not seek to gain territory by force of arms more than is sufficient for their needs. Admiral Evans has sailed into the Pacific, but no one believes a war will follow. His fleet is being feted and entertained wherever it stops and it will bring the South American people into closer touch with the sister republic and impress the residents of the Pacific slope with the greatness of the nation in which they are an integral part.

### MURDER AND ASSASSINATION

Portugal today mourns the loss of a King and prince of the royal blood who fell pierced by the baneful bullets of assassins. In her loss Portugal has the sympathy of the world at large. To the widowed mother who lost husband and son at one fell swoop, the world offers its condolences and to the new boy King its hand of fellowship in this time of sorrow and bloodshed. Portugal has been a kingdom too many centuries to suddenly become a republic. The days of the French revolution are still too vivid a scar upon the map of Europe to be forgotten. It is to be hoped that the days of the new ruler will be peaceful and that he will live to rule his people long and wisely.

### THOS. S. NOLAN

Thos. S. Nolan has announced his candidacy for the republican nomination for congress at the September primaries. Mr. Nolan is too well known to the voters of Rock county to need any introduction and the rabid mutterings of partizan papers in the southern portion will not detract from his campaign but add fuel to the flames. To Rock county belongs the office if a change is to be made. Years

ago it was conceded that the rest of the district would yield to a Rock county candidate when the time came. In Mr. Nolan Rock county presents her choice and it is to be hoped he will receive the hearty endorsement he deserves throughout the entire district.

Janesville has an efficient fire department. Why not pay them in proportion to their work? The call men receive a hundred dollars a year. Why not make it a hundred and twenty and pay them once a month?

With the resumption of prosperity why not again take up the idea of the fair and home-coming next fall? It will be too late soon to do anything definite this year and it will be postponed again.

It is said that Governor Davidson is soon to announce his candidacy for the republican nomination for Governor. Well, it is doubtful if there is any opposition and he has only had one term anyway.

Congress has not yet decided just what to do with the President's message. The people generally are in doubt and wonder if it is not a campaign document and not a staid and solemn document of state.

History is being made in Europe, but the Balkan war cloud has not appeared for some days and Portugal appears to be the stage center of activity.

Work of cutting ice on the river has begun and next summer's store of frozen fluid is being put in the lighthouse for the comfort of the thirsty next July.

Janesville needs a new fire engine rather than have the old one repaired. Protection against the future is money well spent.

Wall Street has recovered from its panicky days and now again wants recognition as the center of all things political. Its days as boss of the nation are gone.

Milwaukee still keeps up the old republican political fight and Becker and Rose pop to the front like the flowers that bloom in the spring.

Secretary Taft still continues to lead in the straw vote cast. Perhaps he will continue to lead when the convention convenes.

The council is still the battleground for the different factions to fight out the matters relative to the five-dollar salary.

Politics will soon begin moving in Janesville and candidates for the city offices will appear on the horizon.

For free advertising Janesville is getting its share.

### CONGRATULATIONS.

Mr. Leopard—I am very glad to hear you are going to be married. Miss Ostreich—You are? Well, what have I ever done to you?—N. Y. Sun.

Why They Were Witty. In a certain district of Clydesdale the lodgers of an old widow lady have of late had much cause for complaint regarding the meagerness of the food supply. The other evening one of her lodgers made a remark, upon which the Lanarkshire landlady said to him: "Man Tam, it's curious na lodgers are awa' widdy?" "Ay, wumman," said Tam, "it's an aw' aying na' a true yin, there's naughting like hunger for sharpens' the wits!"—Dundee Weekly News.

**DR. PRICE'S CREAM BAKING POWDER**

Made from grapes—pure and healthful. No Alum—No Phosphates.

Chemical tests show that alum baking powders leave unchanged alum, an injurious metallic acid, in the food.

Be on your guard. Alum powders may be known by their price—10 or 25c a lb., or one cent an ounce.

### SHEEP A PROFITABLE BY-PRODUCT OF THE FARM.

There are many farms in this country on which a large number of sheep could not be kept profitably, but scarcely any farm exists which cannot keep a few at least, and these can be maintained on the alleys and corners of the farm on what is now a useless loss. The illustration shown above is typical of the way one third of a farmer utilizes his land for this purpose.

**Killed in Queer Accident.** A somewhat remarkable death took place recently in one of the large ovens at Tunstall, Staffordshire, England, used for firing pottery, the deceased being Albert Cotton, aged 21. A man named Noah Goodwin went up a ladder to the top of the oven, when he fell and alighted on Cotton, killing him on the spot.

**Little Deeds Important.** It is sometimes good to be content with doing little; the great and splendid occasions in which a man can benefit his country are few; the humble duties by which her benefit may be advanced are of daily occurrence.—Sydney Smith.

Apply it on the face after washing. It evaporates quickly, leaving only the odor. You must see it to fully appreciate.

**Those Collar and Cuff Sets**

Last week we advertised to give away \$75.00 in cash which was done by selling a certain number of beautiful Collar and Cuff Sets in embroidered, hemstitched, and lace effects, at 25c, but any woman who knows but little about qualities could not fail to see that these Collar and Cuff Sets were never made to retail for 25c. They are actual 50c qualities and it is only because the manufacturer closed out several thousand dozen at almost any price to turn them into money that we could buy them to sell for 25c.

This morning we received about 10 dozen more of the same qualities in a large assortment of beautiful designs and when this lot is gone they are very liable to be a thing of the past at 25c a set, for they simply cannot be made to retail for that price. When customers buy from four to six sets at a time they realize that they are an unusual bargain. See them at the lace counter.

**A Word About Table Damasks**

We had a store talk a few days ago about our GERMAN SILVER BLEACHED DAMASK which we are selling at \$1.00 per yard. If there is one thing more than another that interests the average housewife, it is a good piece of Table Damask, being an article that is never out of style and always in demand. This damask is 70 inches wide and the actual fact is we cannot buy it today to sell for less than \$1.25. If we were in the habit of telling fairy tales one might think this was one, but the minute a woman gets hold of the damask, or better still, when she sees how it looks after it goes through the laundry she realizes that we do not speak too highly of its merits. Silver Bleached Damask becomes pure white after laundering three times. It is easily ironed, weighty and fine. Select from such beautiful patterns as fluer-de-lis, white rose, poppy, tulip, chrysanthemum, snow-drop, tiger lily, shamrock, Iris. Buy all you want while they last. 70 inches wide, price... \$1.00

**Ready-to-Wear Garments**

If you can find your size, it is certainly worth while to take advantage of the extremely low prices we are making on our winter Cloaks, Suits and Furs. We still show a limited quantity of beautiful Cloaks in cloth, velvet, caracul cloth, and fur, black and colors, including some party coats in evening shades of broadcloth that are beautiful. Of children's and Misses' there are many garments that cannot fail to interest parents who have girls needing new cloaks. To see them means to want them at the figures we are making.

**We lay Cloaks aside on a partial payment plan.**

## Of Course They Said So.

"How did you happen to come to me for your Dentistry," said Dr. Richards to a patient recently.

"Why, you see I'm a stranger here," said the party, "and I inquired of several people as to what Dentist to go to and they all said 'Dr. Richards.'"

"Not a bit. You never hurt me in the least."

"Of course, I didn't want to be hurt and so I came up to you."

"Well, are you sorry you came?"

"Not a bit. You never hurt me in the least."

It's worth something to have such a reputation for Painless Dentistry. If you need dentistry and wish perfect satisfaction try Dr. Richards. He "delivers the goods."

## DANCED UNTIL THREE O'CLOCK

300 AT BLODGETT-HOLMES BALL

## TO KRELL'S FAMOUS BAND

Canopied with Southern Smilax, Assembly Hall Was Veritable Land of Enchantment—Many Visitors Present.

Memories of the softened glimmer of bright lights straggling through a gorgeous canopy of southern smilax and low-hanging red and white chrysanthemums; of a floor glistening of oriental rugs and easy chairs, with every nook and corner banked with palms and ferns; of compelling music which had to be repeated over and over again and evoked ringing applause for each dance number after the last vestige of stiff formality had taken its early departure; and, finally, of beautiful costumes and happy faces in perfect keeping with a real land of enchantment, will linger long with the three hundred who were guests of Mr. and Mrs. Frank Blodgett and Mr. and Mrs. David Holmes at Assembly hall last evening. Measured by the perfection and beauty of appointments and the unalloyed enjoyment of every participant, the ball was the most notable event of the kind ever given in Janesville.

Prof. W. A. Krell's Chicago orchestra played a preliminary concert during the reception which lasted from 8:30 to half-past nine and the dance program was not concluded until three o'clock this morning. No such music had held its potent spell on people hereabouts for many years. Whether he played new favorites or old ones, the leader, seated at the piano, never forgot his delicate shuffling or permitted the efforts of himself or his men to become mechanical. Drummer DeLoe with his crashing cymbal climaxes; Cornetist Kazak with buoyant bugle notes in the "Tomb Raider" song; Violinist Conry pressing the strings in a "Dream of Love" and "Dreadful" waltzes; Schell, the clarinetist; Wilke, bass viol; Churn, trombone; and Schmidt, playing bird notes on the flute, were always responsive to and in perfect sympathy with their conductor. The program included a number of lively "burn dance" figures of which few were content to remain spectators.

Throughout the evening a buffet luncheon was served at the north end of the ballroom under the direction of Mrs. Louise Bowerman. There was a large punch bowl on the first floor and in the balcony, half hidden by the foliage, a few from time to time availed themselves of the invitation offered by numerous boxes of cigars. The decorative scheme was carried out by Edward Amerpohl.

Among the visiting guests were a large number from Beloit who were conveyed home on a special interurban car at 2 a. m. This company included: Mr. and Mrs. Humphrey Foster, Mr. and Mrs. Edwin Haddock, Mr. and Mrs. Roy Rockwell, Mr. and Mrs. David Worthington, Mr. and Mrs. J. H. Adams, and Mr. and Mrs. Thomas Hendley; the Misses Eva Vail, Grace Nye, and Martha Hall; and the Messrs. S. K. Chase, A. J. Dieke, William Lane, and Claude Hanna.

Others from out of town were: Miss Carol Fairchild, Frank Jacobs, William Fox, and Prof. J. P. A. Pyre, all of Madison; Miss Natalie Dalton of Indianapolis; and the Messrs. Frank de Zafello, William Lane, Donald, and Charles Reynolds, all of Milwaukee.

### CURRENT ITEMS.

Three New Arrivals: Mr. and Mrs. William Williamson, who reside at the corner of Third and South, their streets, are rejoicing over the arrival yesterday morning of an infant daughter. On Sunday Mr. and Mrs. Charles Hoyer welcomed an infant boy at their home on East Milwaukee street; and the home of Mr. and Mrs. Thomas Cullen on Lincoln street was likewise brightened by the advent of a son.

To Meet at Gas Office: At seven-thirty tonight there will be a meeting in the gas company's office to consider raising the \$100 necessary to defray the expenses of the tobacco men's convention to be held here this month. The meeting will be presided over by Mayor Holden. This convention will be of importance to the city and all who are interested are requested to be present.

Fire at Railroad Hotel: The chimney at the Railroad hotel was cleaned this morning and it was necessary to let the fire go out during the operation. In order to "warm up" again a roaring blaze was started under the boiler of the heating plant and this presently set fire to some adjoining timbers. The department was called at 11:30 and put the flames out with chemicals. Only nominal damage was done.

### LOCAL PARAGRAPHS.

Use Taylor's Solvay coke. The opening day of annual clearing was certainly a busy one. You can't afford to miss this sale. Pay a visit to the store and see the bargains we are offering. T. P. Burns.

Connell Chamber cigars are the best. The ladies of the W. H. C. will meet at the hall Thursday morning for all day work. Those who can remain for the afternoon please bring lunch and stay for dinner.

Comrades of W. H. Sargent Post No. 20, G. A. R., will meet at Post hall this evening at 7:30 to make arrangements to attend funeral of Commander F. G. Lawler at Rockford Thursday, 12. Dinner given by St. Agnes Guild, Trinity church. When is it? Lincoln's birthday, Feb. 12. Where is it? East Side I. O. O. F. hall.

All our clocks, suits and furs for this sale have been marked down to half price, and less. Come tomorrow and get first choice. Now bargains every day. T. P. Burns.

Card of Thanks. We desire to express our heartfelt thanks to the friends who so kindly assisted us after the death of our daughter, Helen, and for the floral tributes.

## GO TO NEBRASKA TO SETTLE ESTATE

E. D. McGowan and John L. Fisher Leaves for La Crosse City on Legal Business.

Attorneys E. D. McGowan and John L. Fisher left this morning for La Crosse, Neb., on business connected with the estate of the late George Lee. Mr. Lee committed suicide on the eighteenth of last December by blowing out his brains with a gun. Mr. Lee, who was married to his cousin, Mrs. Ransom Griffin shortly before his death, left a large estate in La Crosse, where he had made his home for the past twenty years. Mrs. Lee has retained the two attorneys named to settle up this estate.

## INSURANCE OF BANK DEPOSITS BY THE UNITED STATES GOVERNMENT

will be brought before Congress at this session. Whatever the Government does this bank insures them:

By the Capital, Surplus and Undivided Profits of \$180,000, nearly 1% of the total deposits.

By the further legal responsibility of the stockholders which is 100%.

By the moral responsibility of the directors and heavy stockholders which is greater.

By the rigid supervision of the United States government and the National bank examiners.

By the amount of its cash reserve which for sixty days averaged 50% of its deposits, a greater percentage than is carried by the Bank of England.

By the conservatism of the management to whom the safety of the depositor is the first consideration.

## IN THE PUBLIC EYE

## SEEKS SOUTH POLE

Lieut. E. H. Shackleton, M. V. O., the young British officer, introduced several innovations when he started for the south pole with an English party recently. Profiting by past experience, he went practically without vegetables, it being found that they do not keep well, and carried only the best of meats. He will use a specially built automobile for the earlier stages of the journey and, instead of relying on dogs for the final dash over the snow and ice, he will rely mainly on the hardy little Siberian pony.

As commander of the expedition he has taken with him 28 men. "Success" has been painted on the funnel of the old Newfoundland sealing vessel, Nimrod, whose name has been changed for the trip to Endurance, and Lieut. Shackleton expects to plant on the south pole itself the union

Jack, presented to him by Queen Alexandra.

Almost as many fruitless expeditions have been made to the Antarctic regions as to the Arctic, with the odds in favor, however, of the Antarctic explorers getting back to a warmer and more congenial climate.

Shackleton's vessel sailed from Lyttelton, New Zealand, and is expected to reach King Edward VII. Island February 1, which will be midsummer in the Antarctic region. The vessel will then return to Lyttelton and wait until January, 1909, before going to the base of operations on King Edward VII. Island to bring the explorers back to civilization. The motor car is not built for speed. It will carry the provisions.

The base of operations is 750 geographical miles from the pole. It is expected on the return of the expedition to establish depots to within 500 geographical miles of the pole. The dash to the pole will be made by only three members of the party.

Lieut. Shackleton went with Capt. Scott five years ago in the latter's historic dash to the pole, in which a record for "furthest south" was established. During the 96 days' journey over the ice Lieut. Shackleton was stricken with snow blindness and so had to be fastened to the sledges, when all the dogs were dead, in order to do his share of the pulling. He spent Christmas day, 1902, 360 miles from the ship, and the party had a plain pudding which weighed only nine ounces. On his return to England Lieut. Shackleton was made a member of the Victorian order.

## DEFENDER OF ROCKEFELLER

Dr. Harry Pratt Judson, president of the University of Chicago, comes forward as the defender of John D. Rockefeller, whom he represents as the burden-bearer of the community, conveying inferentially the impression that the multi-millionaire takes the money of the American people with a sole view to using it for the best interests of humanity by establishing universities at Chicago, general educational boards and institutions of research. And Dr. Judson is no doubt sincere in the opinion he expresses, for he is a man of considerable independence of thought and not a mere truckler to the money power.

He comes of an old American family that was mainly instrumental in organizing the Baptist church in America, a family that was of considerable importance in the early days of New York state. Incidentally, he is a nephew of Grover Cleveland, but he does not trade upon that.

The doctor was born in Jamestown in 1849 and was graduated from Williams college in 1870. He was for 12 years principal of the high school at Troy, N. Y., and in 1885 accepted the chair of history and a lectureship on pedagogy in the University of Minnesota. Seven years later he went to the University of Chicago as assistant professor of political science, and was shortly afterwards promoted to head of his department. The administrative duties he displayed while acting president during Dr. Harper's illness caused him to be selected as president of the university at the latter's death.

Dr. Judson is the author of a number of authoritative works, including: "Europe in the Nineteenth Century," "The Growth of the American Nation," "The Higher Education as a Training for Business," "The Mississippi Valley," and a number of others on a wide range of subjects. He has been decorated by the German emperor as a compliment to his literary ability.

## THAW TRIAL JUDGE

Victor J. Dowling, justice of the supreme court of New York, who is sitting as trial judge in the Thaw murder case, is one of those judges who believe in deciding every question as it arises, promptly and definitely, and allowing no criticism of his ruling afterwards. At the last Thaw trial Justice Fitzgerald allowed the lawyers the fullest latitude in arguing every little point of law, and after he had decided the point would permit them to carry on another long drawn-out debate. This is a thing that Justice Dowling has never been known to tolerate. He holds the record for the shortest murder trial in New York. By holding the attorneys down to the case and excluding all extraneous matters he had a verdict in 40 minutes from the time the case was started.

Dowling studied law in the office of Justice Fitzgerald. At the University of New York he won many honors, particularly the Davin prize for classics, and also prizes for both the best written and the best oral examinations. From the beginning he has been an ardent politician and he has served two terms in the state senate, besides being for several years one of the party leaders and one of the secretaries of the Tammany hall executive committee. In 1905 he was elected by a handsome majority justice of the supreme court, the term for which is 15 years and the salary \$17,500 a year.

The judge is 41 years of age. He is a recognized authority on constitutional law and is the author of the Dowling anti-gambling bill, which he presented while in the senate. He belongs to a number of Catholic benevolent societies, several historical societies and the Oakland Golf club. He has fought many battles for the labor unions.

## NEW OKLAHOMA CONGRESSMAN

That he is seven-sixteenths Chickasaw and one-eighth Scotch-Irish is the boast of Charles D. Carter, new member from the fourth Oklahoma district. His paternal ancestor, Nathan Carter Sr., was captured when a small boy by Shawnee Indians at the Lackawanna valley massacre, when all of the other members of the family except one of Nathan's sisters were killed. Nathan Carter was afterward traded to the Cherokees, one of whose full-blooded squaws he married. Mr. Carter's father, a captain in the confederate army, added to this strain of Indian blood by marrying a one-fourth breed Chickasaw woman, a sister of Gov. Gay, chief of the Chickasaws.

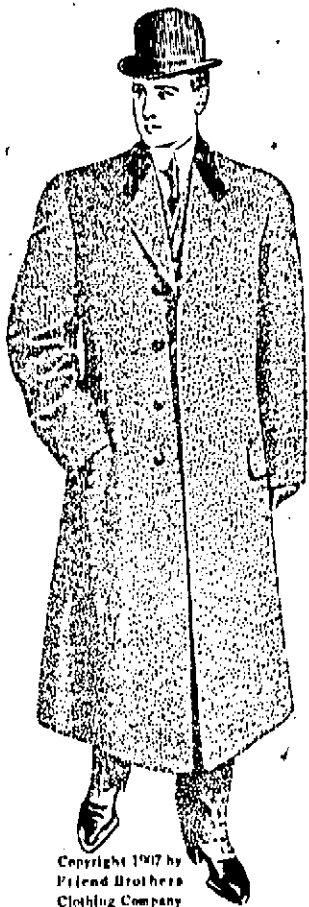

The new representative was born in a little log cabin near Boggy depot, an old fort of the Choctaw nation, 38 years ago. When seven years old he was taken by his parents to Mill Creek, a stage stand and postoffice on the western frontier of the Chickasaw nation. When 11 he started to school at a log school house nearby. When 13 he entered the Chickasaw Manual Labor Academy, where he finished when 18. Two of these five years at the academy he missed in order to work as a cowboy on his father's ranch.

As a cow-puncher and broncho-buster he began life for himself at "Diamond Z" ranch, where the city of Sulphur now stands. He was then 18. When 20 he accepted a position in a store where he advanced from clerk to book-keeper, cotton buyer and cotton weigher. When 23 he was appointed auditor of public accounts for the Chickasaw Nation, and three years later became a member of that nation's council. From this position he advanced to superintendent of schools and mining trustee of Indian territory. At the time of his election to the new congress he was in the insurance business.

Americans are considered the most highly civilized people on earth because the men are more completely enslaved by their women. The Spartan women made bowstrings of

their hair were no more potent a factor in the military achievements of the Spartan men than are the American women in the commercial achievements of American men.—Louisville Courier-Journal.

## FORTY YEARS AGO

Jansville Gazette, Feb. 4, 1868.—The examination of William Carroll, the examination of this young man, charged with shooting the bar-tender of William Hattlinger, has been in progress all day and was not concluded as we go to press.

Don't Forget It.—One of the best dramatic amateur entertainments ever given in this city is to be given to-night in Lappin's Hall. Intrinsically it will be worth the price of admission, but the proceeds will be placed in the hands of some proper person for distribution to those who need assistance during this inclement season. Give them a full home.

High School Gymnasium.—The pupils of the high school are making an effort to secure a gymnasium. The room in the basement of the building is admirably adapted to that purpose, and to secure the necessary apparatus an appeal is being made to our citizens to lend a helping hand. The city will be canvassed for subscriptions for the fund to purchase apparatus and we trust that our men of business, and everyone who has the welfare of the school at heart, will contribute liberally for the purpose and thus render still more efficient our already prosperous school.

Our Board of Education would gladly add in the enterprise but there is only enough money in the school fund to run our schools in the most economical manner. We hope another year a more liberal provision will be made for their support. We are glad to see a movement made for gymnasium and bespeak the cordial seconding of the effort by the people.

Now York, Feb. 4.—It is stated that the charges against Judge Field of the Supreme Court arise from the fact that he stated in private conversation with Senator Stewart of Nevada that he was at present opposed to impartial negro suffrage and also thought a more conservative tendency in our government would be more beneficial.

The accusation against Judge Field was drawn from an inference of his view from the above.

It is stated that Seward hopes to induce Minister Adams to withdraw his resignation.

Gold is quoted today at \$140.54.

Two new Japanese ports were opened to foreign commerce at the beginning of the year.

## NAB BLACK HAND GANG IN CHICAGO

FOUR CAUGHT IN HOLD-UP AFTER MURDER OF ITALIAN.

ONE IS KNOWN AS LEADER

Wanted in Portland, Ore., for Killing Saloonkeeper—Detective Threatened with Death.

Chicago, Feb. 4.—Members of the "black hand" society have started a fresh reign of terror among the Italians of the city following the death of one man Sunday night and the capture Monday of members of the band who had forced a saloonkeeper to give them \$150 at the point of a revolver.

Among the adherents of the guild who were arrested was Nicholas Milio, a notorious leader of the organization, wanted in Portland, Ore., for murdering an Italian saloonkeeper who had received many threatening letters.

The brigands, aroused by a search being conducted for Battista Scardina, 90 Oak street, who is charged with killing Joseph Canella, 37 Gault court, last Sunday night after the victim had refused to forward \$500 to the organization, wrote a threatening letter to Detective James Longhard of the Maxwell street station, who has been instrumental in sending a number of them to prison. The policeman was warned that he would meet death if he persisted in arresting Italian suspects.

Killed as an Informant. Canella was shot and killed in the rear of the saloon of Sanders Sordt, 66 Milton avenue, after he had recognized several inmates of the place as supposed members of the "black hand" society and had attempted to leave the building. While dying he said Scardina, who was in the room, had followed and shot him.

Detectives Rucci and Longhard heard that the man had taken refuge in a saloon in the vicinity of West Park street and Central avenue. While they were searching the district they were attracted by a cry for help from the saloon of Stephen Damora, 393 West Park street.

Find Four Bandits in Saloon. With drawn revolvers the officers rushed into the place and found four Italians who had covered the saloonkeeper with their weapons. Other policemen who had heard the shots rushed to their companions' assistance and the men were taken to the Maxwell street station, where they were "awarded" by Inspector Lavin.

One of the prisoners was there recognized as Milio, said to be a well-known member of the band on the Pacific coast. He fled from Portland, Ore., two months ago after killing an Italian. The other prisoners gave the names of Anton Cantanatti, Louis Morelli and Joseph Giovanni.

What He Wanted. A young man, having an impediment in his speech that prevented him from pronouncing certain words plainly, went into a butcher's shop to buy some sliced shoulder. The butcher was unable to understand what his customer wanted and the young man repeated the order several times, much to the amusement of those present. Finally, becoming indignant at the concealed ridicule, he slapped the butcher on the shoulder and blurted out: "I want some of this, but I want it sliced off of the other hog."—Illustrated Magazine.

Two Accused of Arson. Cincinnati Inquiry Results in Arrests and One Suicide.

Cincinnati, Feb. 4.—As the result of an investigation into what is declared to be a plot on the part of some insurance men and traveling merchants to start incendiary fires in stores opened for that purpose, secure the insurance money and then recoup, two warrants were sworn out Monday by the state fire marshals for the arrest of Louis Lovison and Harry Kohl, on a charge of arson.

One of the men who was questioned by the marshals was A. K. Murray, who committed suicide Monday by cutting his throat with a razor. He was closely questioned as to his knowledge of certain fire of recent date, and the collection of alleged fraudulent insurance. He was never actually placed under arrest but appeared to be worried over the matter.

Boilermakers End Strike. Minnesota Railroad Shop Men Beaten by the Weather.

St. Paul, Minn., Feb. 4.—Vice President Gallivan of the International Union of Boilermakers, announced Monday that the strike of boilermakers against the several railroads in Minnesota was declared off. Mr. Gallivan said that weather conditions have been against the men, as the roads have not needed the equipment that they ordinarily need in severe winters. The men have been on strike since September. The railroad officials announce they will only take back such men as they need.

## ED GEERS' BIG STABLE.

Trainer Has Many Horses From Which to Select Material.

With a barn full of high class and very promising racing material from which to select his campaigners for the next season Ed F. Geers, by all odds the most prominent trainer and driver of the harness turf, will have another sensational string out for the grand circuit of 1908.

While it is quite early yet to pick up the leaders of his stable, all who have seen his horses now in training are more than certain that the veteran will reach the northern tracks with at least ten trotters and pacers, which will help make him the leading winner of the year, as he has been for the past several seasons.

Mr. Geers has already commenced training work, and while he has not attempted to send his charges to much speed, yet many of them have been asked to show fast eighth and quarter, which indicate that the veteran has a number of good prospects.

Whether he will have a High Ball or even a Billy Beech for the season of 1908 no one yet can predict, although the list of green prospects now in training and some which will soon be ready to be taken up is promising enough to bring out more substantial performances as well as record makers for the coming season.

Aside from forty odd horses now in the stable of the veteran trainer, Mr. Geers also has a hushed basketful of requests from harness horsemen and women who follow the sport asking him to take charge of one or more horses which their owners want to be trained and campaigned down the big line, these requests coming from as far west as California and as far east as Maine.

One of the latest requests received by Mr. Geers is from a wealthy trotting horse fancier in England, who says that, having bred some trotters in that country which he thinks can beat the American bred horses, he is very anxious to have the veteran take charge of several of them, but this request has been declined for the reason that Mr. Geers can have hundreds of horses in this country if he could find time to train them.

In answer to the Englishman's letter Mr. Geers said, "I have but two hands, one set of bridle, one good and one game leg, besides the desire to sleep also hours out of the twenty-four."

Mr. Geers admits modestly that among forty odd horses now in training he has hardly one that will do to race; but, then, horsemen believe he will go north late in the spring with at least twenty head.

The oldest race horse now in Mr. Geers' stable is Baron Grattan, 2:03 1/2, which was saved from the dispersal sale of Frank G. Jones of Memphis, Tenn., and which carried the Jones colors in many a hard fought race for several seasons.

The future of the famous Billings park track in Memphis, Tenn., has been definitely settled now by the announcement of Mr. Jones, who speaks for C. K. G. Billings, to the effect that no offers for the cutting up of the track property for lots or manufacturing sites will be listened to at any price or terms.

This announcement has caused much satisfaction to horsemen, and a large number of owners have declared their intention of sending horses to the track for winter and spring training.

Nearly 200 horses are now stabled there, and more are expected to come in the near future, and before spring opens the track will be one of the finest training grounds for harness horses in the country.

From a railroad point of view the best prospect in Mr. Geers' string now

VETERAN TRAINER ED GEERS.

is Trivial, a five-year-old by Borak, while there is considerable favorable gossip about Huntsman, also a five-year-old, by Onward Silver, 2:05 1/2, which Mr. Geers once raced with much success down the grand circuit.

All told, horsemen believe that there is more promising green material at Billings park track, Memphis, Tenn., right now than anywhere else in the country, and there is every reason to say that their number will soon increase to such an extent as to make the doings there of great interest to racing men.

## The Newman Bros. Piano..

Embodies several new and special features in piano building.

Our new scale is unequalled for its even scale power, quality and tone; drawn by a piano maker of more than thirty years of practical experience.

This is the age of progress and progress is the child of inventive action. In the manufacture of our celebrated line of Overstrung Cabinet pianos we have introduced many new ideas, the result of employing expert workmen. No incompetent or juvenile help in any of our departments. Thus with nothing but men of mature experience, combined with the best materials, we have created a line of instruments that is unsurpassed.

Perhaps you have an old worn out piano or organ that you would like to trade in toward a new piano. If that is the case just call up like to trade in toward a new piano. If that is the case just call up like to trade in toward a new piano. If that is the case just call up like to trade in toward a new piano.

There are nearly one hundred and fifty Newman Bros. pianos sold in Rock and Walworth counties. This surely speaks well for the Newman. Buy a Newman-Bros. piano and be happy.

HEAVENS PRESENT  
WONDERFUL SIGHTTHE SKY AND STARS MOST IN-  
TERESTING TO FOLLOW.

## QUEER CONDITIONS TONIGHT

Moon, Venus, Saturn, and Mars Are  
Very Near Neighbors This  
Evening.

The sky and stars are unusually in-  
teresting tonight. Janesville observ-  
ers will find Moon, Venus, Saturn,  
and Mars very near neighbors, so near  
in fact that by drawing two lines from  
the North Star to the southwest 30  
degrees apart we enclose the four, and  
it appears to be in the almanac sign  
Aquarius. Jupiter, due east  
and 3 hours high at 4:30 p. m., ap-  
pears in Cancer. Caster and Pollux,  
marking the sign Gemini (whom the  
Apostle Paul mentions in Acts, 28:11)  
are about one hour and 20 minutes  
higher and directly over Jupiter. The  
headless giant Orion, with feet to the

south, marks the 30 degrees of Taurus,  
and is seen 8 to 9 p. m. directly south  
of overhead. He stands facing us, in  
the right shoulder a very bright star  
Betelgeuse, in left shoulder is Rigel,  
three very small stars mark the  
neck, three stars in the belt and three  
in the dagger, and one bright star in  
each knee make a very interesting  
study, even if his head is lacking.  
Possibly the Unmuzzled Lion, which  
brings forth more like a lizard, the  
bright star Sirius in eye, just east of  
Orion's right foot, may be responsi-  
ble for the loss of his head, judging  
from our own experience. Two  
lines 30 degrees apart, drawn from  
North Star enclosing the bowl of the  
Big Dipper and extended on south  
mark the Almanac Zodiac. Division  
Leo, another 30 degrees to the east  
enclosing the three stars of the Dip-  
per Handle, will mark the Virgo Di-  
vision and outline the Big Bear, ears,  
nose, throat, four ribs, knees, tail, and  
feet, appearing at 8 p. m. and remain-  
ing in plain sight to the naked eye the  
remainder of the night. One month  
hence we will pass any given star  
just four hours earlier than we pass  
that star at night. If you will select  
some star overhead at any set time  
tonight one month hence you can  
state which direction we with our  
Earth are moving and know from ac-  
tual observation something not taught  
in schools nor found in books.

**LOCAL OBSERVER.**  
All the bright planets are visible in  
the evening sky during the month. By  
far the most brilliant are the evening  
star Venus in the southwestern sky  
and Jupiter, which is seen ascending  
the eastern sky until it reaches the  
meridian at a high altitude at or to-  
wards midnight. Mars has moved  
eastward rapidly and is still a con-  
spicuous object in the western sky,  
while Saturn is far lower in the west  
and sets in the early evening. Mer-  
cury is an evening star and reaches  
greatest elongation east February 13,  
and will at that time set at 7:00 p.  
m. a little south of the west point on  
the horizon. The planet will soon be  
rather favorably situated for obser-  
vation for a period of a week or ten  
days. By February 24 the planet re-  
turns and passes through inferior con-  
junction.

VETERINARIAN TO  
SLAUGHTER A COW

Cow Afflicted With Tuberculosis is to  
be Killed by Assistant State  
Veterinarian.

Believing that a cow belonging to  
Mr. Hollock of South Main street  
had tuberculosis, it was requested  
that assistant state veterinarian D. B.  
Clark should examine the animal. On  
finding that the cow was diseased  
Justice Tallman appointed three ap-  
praisers who should fix the value of  
the animal which should be allowed  
to its owner. Those appointed were  
D. Clark, Alex. McGregor, and L. L.  
Pfeiffer. They will appraise the cow  
today after which she will be killed.

**Other Cases**  
Justice Tallman yesterday finished  
the trial of the case of W. Lawas vs.  
W. Lippert. The plaintiff worked for  
the defendant for five months and  
brought the suit for his pay. The de-  
fendant in turn alleged that the plain-  
tiff had forfeited all pay due him by  
not staying nine months as he had  
agreed. A number of witnesses were  
called to prove whether or not the  
plaintiff was forced to stop work on  
account of sickness and the trial took  
up two days. The decision will be  
given Monday morning.

TEAM THIS EVENING

Local Bowling Team Will Try Conclu-  
sion With Beloit Five This  
Evening.

Members of the Watmore bowling  
team will go to Beloit tonight on the  
seven fifteen interurban car to meet  
the Goss's Stars of that city. This is  
the second game that the local team  
has rolled against the Line City five.  
In the first game the Janesville  
men were victorious and this match  
will decide which of the two teams  
will roll against the All Stars for the  
championship of southwestern Wiscon-  
sin. The local team, which is cap-  
tained by C. DeShmons, is made up of  
C. DeShmons, M. Cook, C. Atkins, G.  
Hole, and O. Osborn. It is expected  
that they will have no trouble in beat-  
ing the Beloit five.

## ELECTION OFFICIALS NAMED

**Amendment to Charter for Collec-  
tion of All Taxes at One Time,  
Offered-Effort to Change  
City Pay-Roll Failed**  
An ordinance introduced by Alder-  
man Jones and providing for raising  
the salary of the city engineer \$300  
and of the street commissioner \$100  
and cutting the health officer's com-  
pensation from \$350 to \$300, was defeat-  
ed at the regular meeting of the city  
council last evening. The negative  
votes of Alderman O'Hara and Buch-  
holz forestalling the necessary two-  
thirds majority. As any changes for  
the coming year and to be made last  
evening, the salaries of all city officials  
will remain as heretofore. Alderman  
Morritt and Sheldon were absent from  
the session.

**No Action on Roller Question.**  
Reports were received from the fi-  
nance committee, the board of educa-  
tion, the city treasurer, and the mu-  
nicipal court. Further time was  
granted the highway committee for  
the consideration of a proposal from  
Julian Schell & Co. of Kingston, N.  
Y., to furnish the city with a steam  
road roller at \$2,850, taking the old  
machine in part payment. A repre-  
sentative of a Port Huron concern was  
present at the meeting but deferred  
making a proposal until the next meet-  
ing.

**To Collect Taxes at One Time.**  
Ald. Brown introduced an amend-  
ment to the city's special charter pro-  
viding for the adoption of such por-  
tions of the general charter law as  
will permit the collection of the city  
and county taxes at one time. It was  
given his first and second reading and  
on motion of his sponsor referred to  
the finance committee for inspection  
and a report thereon at the next meet-  
ing.

**Notice of Damage.**  
An agent for Jacob Sutton & Sons,  
P. S. Haines presented a petition for  
the refunding of \$32.91 over assess-  
ment on leaf tobacco stored here.  
The judiciary committee was granted  
time for the consideration of the  
matter. The judiciary committee was  
granted further time for the con-  
sideration of a claim for alleged dam-  
age to property resulting from grad-  
ing operations on South Pearl street,  
which was filed by Mary Head.

**The Police Record.**  
City Marshal Appleby's report for  
January showed that 5 arrests were  
made for violations of city ordinan-  
ces, 1 for non-support, 1 for larceny,  
1 for forgery, 3 for assault and bat-  
tery, and 37 for drunkenness. Lodg-  
ing was paid to 215 men out of work.

**To Buy New Fire Hose.**  
By the passage of an order intro-  
duced by Ald. Buchholz the chief of  
the fire department and the fire and  
water committee were authorized to  
buy 500 feet of new hose. The chief  
was also given authority to allow  
members to be off duty for periods not  
aggregating more than 24 hours in  
any one week and with the under-  
standing that they shall always be  
subject to his call.

**Sidewalk on Monterey Bridge.**  
Ald. Sheldon presented an order  
calling upon the city engineer to pre-  
pare plans and specifications for a  
sidewalk to be built on the east side  
of the Monterey bridge. The meas-  
ure was passed. The purchase of a  
copy of the Wisconsin statutes for the  
city clerk's office, the cost not to  
exceed \$5.50, was authorized.

**City Engineer's Opinion.**  
As to the right of the five men  
who were hold-over aldermen when  
the first measure authorizing salaries  
or compensation of \$5 a meeting for  
the incoming city fathers, was passed,  
to receive the same pay under the

**Ralph R. Bennett**  
Tuning-Pipe Organs and Pianos  
Order at J. P. Baker.  
Residence 924 Park Ave., Beloit.

derance Number 307, which provided  
a remuneration for all aldermen of  
the city at the rate of \$5.00 for each  
regular council meeting actually at-  
tended.

In the case of Paul Rudolph, Geo.  
O. Buchholz, William Morritt, John J.  
Sheldon and W. W. Watt, who com-  
posed the other half of the council, at  
the time of the gentleman whose or-  
ders are in question, brought an ac-  
tion against J. F. Hutchinson as mayor  
of the city of Janesville, by which  
they endeavored to compel him to  
sign the orders passed by the council  
for their aldermanic services, after  
his refusing to sign same, our su-  
preme court held that his approval  
was beyond control of the court  
whether by mandamus or otherwise,  
and that the adoption of said Section  
925 authorized the payment of a  
salary and compensation to the al-  
dermen in common with the other offi-  
cers of the city. In passing upon this  
the court said:

"We think it obvious that the ex-  
pressed words of affirmative grant of  
power to the council confer author-  
ity to compensate any officer in such  
manner as to the council shall deem  
wise, and the words salary and com-  
pensation are both used in order to  
repudiate any restriction to the more  
technical significance of the word sal-  
ary. We do not deem the last clause  
of significance of any contrary in-  
tention. It is a restrictive clause in  
effect qualifying the grant made by the  
earlier words, and if there is any dis-  
tinction between salary and compen-  
sation, it is the restraint and not the  
grant of authority confined to salary."

By this the court intimates that if  
there is any difference between the  
words salary and compensation, it  
had no bearing on that case as the  
legislature authorized either and only  
restricted salary. The object of the  
restriction of power expressed in said  
clause is to prohibit aldermen from  
voting upon the question of their own  
remuneration.

The court in refusing to compel  
the mayor to sign the orders passed  
by the council, of a necessity held that  
they would have to be allowed by a  
vote of the council, thus permitting  
members of the common council to  
vote upon the question of their own  
compensations.

As the orders in question were not  
before the court at the time of deter-  
mining that case, it is difficult to tell  
just what the court meant as to the  
law applicable to the same. But it  
seems to be fair, just and reasonable  
that if the court would allow and per-  
mit but of the council to vote upon  
the question of allowance of their  
pay for aldermanic services, that  
they would extend the same privilege  
to the other half when acting under  
the same law as in this case, and with  
my judgment the opinion filed with  
this council by the Hon. M. G. Jef-  
fries, in which he held the orders in  
question to be valid, is correct under  
the case just cited.

Respectfully submitted,  
H. L. MAXFIELD,  
City Attorney.

**Payment Was Authorized.**  
Ald. Buchholz took exception to the  
citation of M. G. Jeffries' opinion on  
the ground that such a document had  
never been filed, and this latter con-  
tention was supported by a statement  
from the city clerk. He objected to  
the vague terms of the concluding  
paragraph and insisted upon an an-  
swer, Yes or No, to his question as to  
whether the hold-overs of 1906 were  
entitled to a salary for the period ex-  
tending from April 20 of that year to  
April 16, 1907. The city attorney said  
that his construction was as plain as  
the English language could make it  
and at first refused point blank to  
supplement it with any oral state-  
ment. Mayor Hedges would present an  
order authorizing the payment of the  
sums in question if he were not un-  
derstood to be legitimate. After con-  
siderable discussion the order passed,  
all voting "aye." It included the fol-  
lowing appropriations: E. P. Fish, C.  
E. Brockhaus, and J. J. Dulin, \$10  
each; E. L. Connell, \$120; and A. C.  
Hager, \$90.

**Election Officers Appointed.**  
Mayor Hedges' appointments of  
election officers were confirmed.

Preventics are thoroughly harmless little  
Candy Cold Cure tablets. No Quinine, no  
laxative, nothing sickening whatever.  
To check early Colds or Grippe with "Pre-  
ventics" means sure defeat for Pneumonia.  
To stop a cold with Preventics is surely  
safer than to let it run and be obliged to  
cure it afterward. Preventics will however  
reach a deeply seated cold. But taken  
early—at the sneeze stage—they break or  
head off these early colds. That is surely  
better—that is why they are named "Pre-  
ventics." Promptness however is all-im-  
portant. Promptness in the use of Pre-  
ventics may save half your usual sickness.  
Feverishness, night or day, with child or  
adult, suggests the need of Preventics.

Baker; Evening—Baptist church, R. P. Hutton; Free Baptist church, J. P. Baker.

The M. E. church is the recipient of one hundred new Methodist hymnals, which were presented to them in memory of Mrs. Maria Boyce. Mrs. Boyce, who was greatly beloved by all who know her, was for many years a resident of Janesville, but came here after the death of her husband and spent the remaining years of her life with her daughter, Mrs. A. Eager.

Mrs. Martin Paulsen will entertain

## A WOMAN'S BACK.

The Aches and Pains Will Disappear of the Advice of This Janesville Citizen is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidneys' fault.

Backache is really kidney ache; That's why Doan's Kidney Pills cure it.

Many Janesville women know this.

Read what one has to say about it.

Mrs. Elizabeth Johnson of 58 Terrace St., Janesville, Wis., says: "I have been troubled with a very heavy back, accompanied by a heavy bearing-down of the pelvis. I did not understand my trouble at first and used a lot of remedies that did not help me, but since I used Doan's Kidney Pills, procured at the People's Drug Co., I have been rid of my old complaint, and it gives me pleasure to recommend such a reliable remedy."

## SIMPLE WASH CURES ECZEMA.

Itching, Burning Skin Disease Routed Without Use of Injurious Drugs.

Great inventors often have been praised for surrendering the secrets of their discoveries. Practically the same thing happened in the medical world in the case of Dr. DeCatur D. Dennis, the eminent skin specialist of Chicago.

Dr. Dennis, in his own office practice, discovered that pure vegetable oil of wintergreen, properly mixed with other simple remedies was practically a sure specific for Eczema, psoriasis, barber's itch, salt rheum, and other itching skin diseases. But the oil of wintergreen alone was found ineffective. It required other mild ingredients such as glycerine and alcohol compounded with the wintergreen to produce the real eczema cure.

This compounded D. D. D. Prescription positively takes away the itch at once—the instant it is applied to the skin. This vegetable liquid does away with deleterious drugs so long used in an attempt to doctor the blood, whereas modern science has determined that eczema is first and all the time a skin disease.

If you want to know more about the merits of D. D. D. Prescription, call at our store. We vouch for this remedy. J. P. Baker and Holmstrom's Drug Store.

a number of her lady friends tomorrow afternoon and evening.

Mrs. Anna M. Lyon of Chicago will give a lecture to ladies on "Health and Hygiene" in the city hall Wednesday afternoon at 2:30 o'clock.

Louis Sullivan has resigned his position with the Baker Mfg. Co. and is at present making his household goods preparatory to moving to Minneapolis, where he has accepted a literary position. During their stay in Evansville Mr. and Mrs. Sullivan have made many warm friends who regret their going.

There was a large attendance at the union meeting at the M. E. church last evening. The Rev. D. Q. Grabbill of the Congregational church delivered a very able sermon, taking as his topic "Go Forward." The anthems rendered by the double quartet of the M. E. church were very fine and much appreciated.

Miss Hazel North, who is a senior at Lawrence university, has been engaged as an assistant in the high school at Kaukauna teaching literature and German. She is still doing her work at the university in the morning and going to Kaukauna each afternoon.

It is some years since grip has been as prevalent in Evansville as at the present time. Nearly one-half the people here are suffering from it, many being very ill. Mrs. Dwight Reed, Josie Kingston, J. H. Johnson and a little son of Ben Ellis are reported very sick today.

Mrs. A. Eager and daughter Gertrude will leave Friday morning for excursion to Mexico and other southern states. They expect to be absent about a month.

Miss Amelia Nelson and Walter Hansen, both of Rutland, were united in marriage Saturday afternoon at two o'clock at the M. E. parsonage in this city, the Rev. T. W. North performing the ceremony. The couple were attended by Mr. and Mrs. William Rasmussen. Mr. and Mrs. Hansen will reside on a farm owned by the groom near Rutland.

D. Q. Grabbill will give the third of a series of talks to young men next Sunday evening. His subject will be "The Young Man in Politics."

In the basketball games played between the Durand and Evansville teams Friday evening at Durand, Ill., the home boys won from the Durand team 23 to 16, while the young ladies team of our city met defeat, the score being 27 to 4.

Miss Ida Ringhand spent Sunday with her parents near Brooklyn.

Mr. and Mrs. W. H. H. Johnson gave a six o'clock dinner last Friday evening to the members of the Baptist church and a few of their friends.

## SCHOOL BOARD TO MEET ON SATURDAY

Annual School Board Meeting for Green County Will Be Held in Monroe Next Saturday.

Monroe, Wis., Feb. 4.—The annual school board convention for Green county will be held at the courthouse in this city Saturday next. State Rural School Inspector L. W. Wood will be present and address the convention on "Consolidation and the Township High School" and "Recent School Legislation."

George Heddinger, residing north of Brownstown, was kicked in the face by a horse and was seriously injured. The horse had several shoes and one of the calks broke the outer plate of the skull, striking him in the forehead. The other calks cut a deep gash above the eye, while the front plate lacerated his teeth. Mr. Heddinger broke a leg while in the city last fall.

The country roads are badly drifted with snow and in many places are impassable, making it necessary for farmers to drive through fields. Some of the rural mail carriers have not been able to get over their routes since Friday's storm.

Mrs. Thomas Barnore of Jefferson township was kicked by a cow and sustained the fracture of the main bone of the left forearm.

C. Bennett, an old resident of this city, is very low with pneumonia. He is the father of Mrs. Geo. E. Egan of Janesville.

Paul Ronneberger and Samuel Hoesly, employed on the Green County Road here, have purchased a paper at Postville, Ia., and will embark in the newspaper business there March 1st.

Monroe has eighty-three taxpayers who paid taxes to the amount of \$100 and over this year.

W. D. Clayton and Sylvester Bolvold have gone to Milwaukee and Chicago to purchase a stock of furniture that will be brought here by Mr. Clayton, who will engage in the furniture business.

## ODD FELLOW LODGES ARE CONSOLIDATED

Lima Center Lodge Gives up Its Charter and Unites With the Milton Lodge.

Milton, Feb. 4.—M. B. Downing and wife have both been confined to the house by illness during the past week.

The Odd Fellow lodges at Lima Center and this place have consolidated and the first named lodge will surrender its charter. This action gives the former members of Lima lodge membership in a strong, active lodge instead of connection with a moribund institution.

J. R. Davidson of Milwaukee who has been a grippe victim, spent Saturday and Sunday here.

Agent Gundersen, who has been a very sick man, is improving slowly.

Twenty-two cases of live hogs were shipped by Vincent & Hansenger last month.

Henry Hall, a former Milton boy, now in the employ of the Department of Commerce and Labor at Washington, spent Sunday with his aunt, Mrs. J. H. Granger.

Mordames Arthur and Theo. Clarke of Edgerton visited Milton relatives Thursday.

Photographer Bardeen of Edgerton has discontinued his studio. In this

**VON DER AHE IS BANKRUPT.**  
Former Baseball Magnate Has Lost All His Fortune.

St. Louis, Feb. 4.—A petition in voluntary bankruptcy was filed Monday by Chris Von Der Ahe, for many years a principal figure in the baseball world and owner of the St. Louis American association team from its organization in 1876 until his retirement in 1898.

According to the petition he alleges he has but \$200 assets to offset \$27,865.25 liabilities. Many of his largest debts are notes for money borrowed for the support of the team he owned.

**Noted Danish Architect Dies.**  
Copenhagen, Feb. 4.—Ferdinand Meldahl, the noted Danish state architect, and for many years director of the Academy of Fine Arts here, died Monday. He was 83 years of age.

Not only was M. Meldahl a great architect, but he was an able administrator. He rebuilt the Frederiksborg Castle, which was destroyed by fire, beginning the task in 1860 and completing it in 1885. He erected also many public and private buildings.

**Receiver for San Francisco Bank.**  
San Francisco, Feb. 4.—Frank J. Symmes, president of the Merchants' association, was appointed receiver of the Citizens' State bank by Judge Sewall Monday with bonds placed at \$50,000. The state bank commissioner sued to have the bank declared insolvent and judgment was given to that effect.

**Biggest of Pullman Tips.**  
Chicago, Feb. 4.—Almost \$200,000 was given away Monday by the Pullman Car company to nearly 4,000 car service employees as the company's expression of appreciation of the high standard of merit and courtesy to the travelling public maintained during the year 1907.

**Sleep And Rest**

Every movement of the body consumes energy. So does mental effort. Energy is supplied by the nerves. It follows that physical or mental exhaustion simply means an over-draft on the nerves. Nature restores energy through rest and sleep. You cannot sleep with tired nerves. Dr. Miles' Nerve soothes the irritation and restores nervous energy.

"Although I have lived nearly 75 years, I have stood up against formidable publication, but the unequalled excellence of Dr. Miles' Nervine
